

Name : Deras Pangestu Gusti (08)

Class : SIB 2G

NIM : 254107060114

SIMPUS-Mini

6.5 Reflective Exercise

1. "Name" and "Member No." are treated as the essential identifying data for a member without them, a record has no meaningful way to be found or referenced later, much like "Title" and "Author" are required on the book form because they identify the book.
2. The browser's built-in HTML5 validation stops the form from submitting. because the name field carries the required attribute.
3. Pressing "Save" doesn't send the data anywhere, there is no destination URL or script to receive it.

7.4 Exercises
